# Cold Stone

Green Alternative to Granite

## Description

Cold Stone replicates natural granite through an environmentally friendly casting process. Containing over 20% post industrial waste and post consumer recycled content; Cold Stone's an eco-conscious option to limited natural resources like quarried stone. Lightweight and easy to install Cold Stone allows projects to use granite effects where they were previously thought of as too expensive. Cold Stone's green content can also contribute to LEED credits.

## Uses

Cold Stone is designed to make granite easy. Easy to work with and install- whether you're casting intricate architectural trim or large panels, Cold Stone's versatility finally makes it practical and affordable to create authentic granite effects quickly and reliably. Cold Stone can be done in any finish; honed, polished, sandblast, bush hammered or rock face.

## Coverage

All coverage's are approximate and depend upon substrate, details, and individual application technique. Cold Stone is produced in 70lb bags. Cold Stone will produce 15sf when cast 1/2" thick.

## Application Procedure

See Tuscan Stoneworx Castings and Installation Instructions for complete details on job conditions and applicable substrate. See Cold Stone bag for proper mixing instructions.

## Colors

Cold Stone is a granite replicate available in 8 standard colors. Cold Stone can also be custom color matched to meet any job specification.

## Storage

Materials shall be stored in a cool dry location protected from inclement weather and other sources of moisture damage.

## Technical & Field Services

Available upon request.

## MSDS Sheets

See Tuscan Stoneworx MSDS Publication

## Caution

This product may cause skin irritation. The use of protective clothing to prevent contact with the skin is recommended.
